

Smalto

Wall tile honey, 10 x 20 cm · Floor tile Trio, terrazzo beige mix, 60 x 60 cm

Glaze with character

The Smalto series is inspired by the fascinating world of crystal glazes. Craftsmanship and modern technologies combine to create new products with intense colors and unique ceramic effect structures.

The collection comprises six colors, four formats and three surfaces and offers a wide range of applications for walls and floors. Each colour consists of around 75 individually designed tiles, whose lively yet calm glaze effects create a unique, harmonious surface appearance.
